

ST HELENS WINDOWS
QUALITY HOME IMPROVEMENTS

Why Choose Us?

Why St Helens Windows?

**“Why should I use your window system?”
do you manufacture your own or buy in?**

Its clear and simple.

Our profile is the best on the market...In fact its the best in europe. **We manufacture our own** for component and in house quality so we hold strongly on buying only the best and using the best manufacturing guidelines We see in the market place many of our competitors buy in from super fabricators or cheap trade outlets who tend to make a trade window based on lower quality products and components especially smaller companies and one man bands even well known names to

“Other companies, like Everest cannot compete with the **price to quality ratio”**

“But its just a window why is yours better?”

Are they Trade made from cheap profiles and components to maximise profits ?

Our uPVC profile is denser, thicker, more structurally strong and has been tested for integrity which makes it superior to any other brand.

No All our windows and doors are made using best quality components and structures using the best brands for steel reinforcement, robust locks, Marine hinges & Screws (rust free) Better performing Glass Stronger Welding techniques for robust security

Real Value for Money - We may not be the cheapest but the extra quality you receive out classes the competition for **Quality - Security - Aesthetics**

“What about the thermal performance compared to others?”

Our systems are designed to exceed all current standards, including thermal performance and enhanced security - We are Rated 'A +7

Even with reinforced galvanised steel **we achieve A rating performance and are more secure than the competition**, who cannot achieve the same standards

“My other quote is cheaper and they say the steel rusts IS THIS TRUE?”

To start, the steel is galvanised and will not rust! Other companies may be cheaper but cannot offer the secure, long lasting, value for money window and door we offer.

Buy to last, buy for the quality and style - don't buy cheap you will ultimately be disappointed and have to buy twice in the same length of time For long life, best performance more secure - **CHOOSE ST HELENS WINDOWS**

Getting other quotes? Ask these questions...

Understanding the qualities and aspects of what you require before approaching for a quote, is essential to getting value for money and real quality. This has always been our moto. Answer these questions with every quote and we guarantee we will not be beaten on quality and price.
